Geography in the Early Years Foundation Stage

Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps.

Know some similarities and differences between different religious and cultural communities in this country, drawing on their experiences and what has been read in class.

Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps.

Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class.

Understand some important processes and changes in the natural world around them, including the seasons.

Locational Knowledge							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
Name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas.	Name and locate the world's seven continents and five oceans.	Locate and name the continents on a world map. Locate the main countries of Europe inc. Russia. Identify capital cities of Europe. Locate and name the countries making up the British Isles, with their capital cities.	On a world map, locate areas of similar environmental regions. Locate and name the main counties and cities in our local area.	Locate the main countries in Europe and North or South America. Locate and name principal cities. Compare two different regions in UK-rural/urban. Locate and name the main counties and cities in England.	On a world map locate the main countries in Africa, Asia and Australasia/Oceania. Identify their main environmental regions, key physical and human characteristics, and major cities. Linking with local history, map how land use has changed in local area over time.		

		Identify longest rivers in the world, largest deserts, highest mountains. Compare with UK. Identify the position and significance of Equator, N. and S. Hemisphere, Tropics of Cancer and Capricorn.	owledge	Linking with History, compare land use maps of UK from past with the present. Identify the position and significance of latitude/longitude and the Greenwich Meridian. Linking with science, time zones, night and day.	Name and locate the key topographical features including coast, features of erosion, hills, mountains and rivers. Understand how these features have changed over time.	
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country.	Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non- European country.	Compare a region of the UK with a region in Europe, eg. local hilly area with a flat one or under sea level. Link with Science- rocks.	Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America.	Compare a region in UK with a region in N. or S. America with significant differences and similarities. Eg. Link to Fairtrade of bananas in St Lucia	Compare a region in UK with a region in N. or S. America with significant differences and similarities. Eg. Link to Fairtrade of bananas in St Lucia Understand some of the reasons for similarities and differences.	
Human and Physical Geography

Geographical Skills and Fieldwork						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
Use world maps, atlases and globes to identify the United Kingdom and its countries. Use simple fieldwork and observational skills to study the geography	Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features: devise a simple map; use and construct basic symbols in a key.	Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.	Use maps, atlases, globes and digital/computer mapping (Google Earth) to locate countries and describe features studied.
